GOVERNOR PRICE DANIEL'S MESSAGE

PURPOSE OF THE CIVIL WAR CENTENNIAL

The Civil War Centennial will stress the bravery and noble deeds of all men and women who fought for their cause and then after the war rebuilt their homes, communities and nation rather than reviewing and re-enacting the bloodshed, strife and discord of the period. All local observances will be left to the individual State commissions and local organizations.

Sites of the military events which occurred in Texas during the Civil War will be memorialized, but no re-enactment of battles will be planned. Today's peace and unity will be stressed as we honor the memory of people and places once involved in mortal combat for the causes in which these people believed.

Commercialized events will have no place in either the national or state programs.

We shall dedicate our new State Courts Building as a memorial to Texas Confederates. The Texas monument at Vicksburg will be completed and dedicated to our Texas men in gray who fought from Brownsville to Gettysburg. The same men will be honored by the massive Library and Archives Building in Austin.

Nearly all Texas Counties may take part by marking veterans' graves, and marking and restoring historic spots of the Civil War period. We should preserve our heritage of valuable documents and papers before they are destroyed.

The proper observance of the Civil War Centennial can leave its favorable imprint on our history for centuries.

FOREWORD BY THE COMMITTEE ON SUGGESTIONS

The compilation, printing and distribution of this first pamphlet is to set before the citizens of Texas the purpose of the Civil War Centennial as indicated by Governor Price Daniel and as a beginning to outline some general ideas for observance. The first issue of this pamphlet cannot be complete and consequently the Committee on Suggestions can be assisted in great measure by ideas from individual citizens, communities and organizations.

By notifying the Committee on Suggestions of any additional ideas future issues of this pamphlet can expand the Centennial program.

It is suggested that County Historical Survey Committees throughout Texas round out their programs to give county and local emphasis to the Civil War Centennial.

The cooperation of state, area and local organizations, agencies and institutions (with an interest in historical preservation) is especially solicited in the carrying out of the Texas Civil War Centennial objectives.

Committee:

Dr. Rupert N. Richardson, Chairman
Mrs. C. C. Cameron, Jr., Vice-Chairman
Mr. Jess M. Irwin, Jr., Advisor
Mr. J. T. Duncan
Col. C. R. Tips
Dr. Heyl G. Tebo
Mrs. Max Weinert
Mrs. Mike Butler
Mr. Joe H. Reynolds
(Mr. George W. Hill, Ex-Officio)

SITES FOR OBSERVANCES

The first ceremony could be the dedication of the State Supreme Court Building to the memory of Texans who served the Confederacy. Date suggested January 8, 1961, officially opening the Centennial.

Ceremony by Texas Legislature on February 1, 1961 commemorating the Sesession of Texas from the Union.

Dedication of the Vicksburg Monument in November, 1961.

Official reopening of the Confederate Museum in the Old Land Office Building, October, 1961.

Pilgrimage to the State Cemetery and other places in Austin and on to La Grange, October, 1961.

Official dedication of the State Archives Building, inviting all patriotic groups to have part in the ceremony.

Programs at Fort Clark, Fort Davis, Sabine Pass, Colonel Williams' grave, Port Galveston, Brownsville (Palmetto Ranch), Livingston (Coushatta Indians), Camp Ben McCullough (Encampment), Bryan (Confederate reunion reenactment), El Paso (with Pilgrimage to Val Verde, N. M.), Port Lavaca (supply and ammunitions depot), Baylor University and Southwestern University.

Special programs could feature the Centennial at the State Fair of Texas at Dallas, the Battle of Flowers at San Antonio, Casa Mañana at Fort Worth, the Fat Stock Show at Houston, the Tyler Rose Festival, East Texas Dogwood Trail, Brenham May Fete, the Cotton Bowl at Dallas and all established festivals, county fairs and rodeos.

Churches, public schools, universities, colleges, bands, singing groups and marching groups should be alerted and encouraged to keep in mind the general theme, spirit and music of the 1860 period.

All counties, communities and organizations can encourage their own festivities.

Many additional sites for observances will be suggested by the Chronology of Events as found in this publication.

Committee:

Mrs. C. C. Cameron, Chairman

Mr. Stuart McGregor

Mr. Burris C. Jackson

The new State Supreme Court Building is a memorial to the Texans who served the Confederacy. The Memorial Foyer now in process of completion will be dedicated during the Centennial period.

SPECIAL STUDIES AND OBSERVANCES IN TEXAS SCHOOLS

It is suggested that the cooperation of the Texas Education Agency and the schools of Texas be sought in preparation and distribution of brochures for all schools with suggestions for:

Themes and Essays on the Civil War

Strategic places of interest in Texas during the Civil War

Women from Texas who did things for the cause

Dances (costumes and decorations)

Pageants to be written and staged by the drama departments

Field trips by history classes to nearby Civil War places of interest.

Further suggestions are that:

Children can look up all sorts of data and enjoy doing it. They would like to exploit the music of the Civil War period.

Children can browse in County libraries and County Court Houses for (1) Battle data, (2) Women in the Civil War work, (3) Homes of the Civil War period, (4) Public buildings of the era, (5) Travel—roads, (6) Guns, (7) Financing the war.

Children would be fascinated by Confederate Balls. A Johnny Reb and a Miss Southern Belle may be elected to reign over the dance.

Department stores can be encouraged to use their windows for school Civil War Centennial displays.

Committee:

Mrs. R. R. Farmer, Jr., Chairman

Mr. F. Lee Lawrence

Mrs. L. E. Dudley

HOUSES, SITES AND LANDMARKS

This Committee is involved in designating, recording, marking, preserving and restoring the historic buildings of Texas. Special emphasis will be placed on places associated with the Confederacy during the Civil War Centennial.

The aims of this program are:

- (1) To designate all historic buildings that merit preservation.
- (2) To record each of these buildings on the statewide survey form.
- (3) To mark these buildings with the Texas medallion which will indicate:
 - a. Whether the particular building merits preservation
 - b. Whether it meets good standards of restoration and/or preservation
 - c. Whether it is open to the public
 - d. Whether a charge is made.
- (4) To encourage the restoration and/or preservation of all such buildings and spread a knowledge of good preservation and restoration practices.
- (5) To prepare a map of historic buildings (that will also indicate monuments and museums) with a legend giving the information under (3) above for each place.
- (6) To prepare a guide to accompany the map that will give the significance of each place on the map, the address and the legend.
- (7) To tie the program of historic preservation to the Program of Tourist Development in Texas.

Mrs. Mike Butler, Chairman
and other Survey Committee
Members and Members At Large

The memorial for Texans who served in the Vicksburg Campaign is to be erected in Vicksburg National Park during the Centennial (statuary will be included).

MARKERS AND MEMORIALS

This Committee is studying the need for markers for important unmarked Confederate historical sites. The possibility of an appropriation from diverted Confederate pension funds is under consideration.

Grave markers for all who served in the Civil War are available from the Federal Government. For information about these grave markers contact local chapters of the Sons of Confederate Veterans and United Daughters of the Confederacy, or Department of the Army, Office of the Quartermaster General, Memorial Division, Washington 25, D. C.

Restoration of existing markers and memorials by local organizations and county committees is being encouraged as is restoration of grounds and cemeteries where they are located.

The erection of the \$100,000 Vicksburg monument for Texans who served at Vicksburg is to begin soon.

The State Supreme Court Building Memorial Foyer is to be dedicated to all Texans who served the Confederacy.

Mr. Millard Cope, Chairman
and other Survey Committee
Members and Members At Large

MUSEUMS

This Committee is concerned with the preservation, in the museums of Texas, of important historical arts, skills and other tangible evidences of Texas' participation in the War Between the States. Special Confederate exhibits in community, area and state museums is encouraged.

The Confederate Museum of the United Daughters of the Confederacy, to be reopened soon in the restored Old Land Office at Austin, has a wonderful opportunity for service during this period.

and other Survey Committee
Members and Members At Large

ARCHIVES, PAPERS AND DOCUMENTS

In the location, preservation and use of these materials the County Committees, organizations and individuals of Texas are requested to work with the State Archives, University of Texas Archives, other central archival repositories and with their local libraries and other local repositories.

The new \$2,500,000 State Library and Archives Building will be completed on the eve of the Civil War Centennial period.

Now available in the State Archives is the microfilm index of more than 100,000 men who served in the Confederate Armed Forces from Texas. The index was provided by the Texas State Historical Survey Committee.

PUBLIC RELATIONS — FINANCE

Since the Texas Civil War Centennial movement will be most successful if the numerous observances are localized, it will perhaps not require as much money to carry out the whole program over the four year period as that appropriated by some other states to their Civil War Centennial Commissions. Nearly every state in the Union is taking part in this Centennial observance covering periods from one to four years, and the amounts vary, such as \$60,000 for two

The State Library and Archives Building to be completed during the Centennial period will give emphasis to Texas' participation in the Confederacy, as one of the six main periods of Texas history.

years for Alabama, and \$500,000 for Mississippi for the four years. At the present time no funds are available for any preliminary expenses. It was felt that perhaps a request of

\$50,000 a year from the Texas Legislature would keep in momentum a consistent series of events throughout the state. This would provide additional staff needed in the Director's office, travel and office expenses and the cost of materials and publications.

In addition Confederate markers could be provided for the many battlefields where Texas soldiers were engaged. It is possible that this appropriation could come from the Confederate Pension Fund.

A comprehensive history of Texas in the Confederacy entailing years of preparation and a number of volumes is needed. Such a work would provide the true story for posterity—no such history is in existence. The cost has been estimated at \$25,000.

The full use of newspaper, radio and television publicity is contemplated. Five minute video tapes could be made and distributed for TV use without great expense.

Committee:

Mr. Cooper K. Ragan, Chairman

Mr. Tom B. Medders

Mr. Frank Tritico

PUBLICATIONS

If sufficient funds are available, modest but attractive publications can be issued by the Centennial Commission and distributed not only throughout Texas but to all the other states. These publications if carefully prepared could set forth information about all the historic Civil War points and events in Texas and wherever Texas participated. The reader can be kept down to date—by pictures and otherwise—on the present plans and methods for observance of the Civil War Centennial in Texas.

A proper observance of the Civil War Centennial in Tex-

as for the five year program can lay an accurate basis for the comprehensive History of Civil War Activities in Texas. The observances will bring forth many unknown facts and confirm the accuracy of known events. This will pin down the true story of Texas' participation in the Civil War for all time to come.

CHRONOLOGY

Many days of time and work have entered into the compilation of this Chronology of events in Texas, 1861-1865, and yet it is not complete. If an event is not included in this first issue the community or city should not wait to be "cranked up." It can set to work at once on its local program.

In order to speed up action from all parts of Texas in formulating local programs now, the following list is set forth. It can and will be expanded in the four years ahead. It is most urgent that anyone who wishes to add to or correct this program of Chronological events, please notify the Chronology Committee without delay.
